Meeting Minutes

Date: July 19, 2013

Time: 10am PST; 11am MST; 12pm CST; 1pm EDT

Call in number: 1-800-250-2600
Moderator Pin: 833108
Participant Pin: 755165

- I. Attendance: *Diana Fortune, Barbara Vassell, Tiffany Moore, Diana Elson, Ann Sittig, Sarah Bur, Lauren Lambert, Lori Armstrong, Sherrie Arnwine, Maria Galvis, Karen Malone, Carla Chee, Candrea Cherry, Patricia Townsend, Jan Young, Candrea Cherry, Molly Dowling*
- I. Minute Approvals- May Minutes—Approved by Ann Sittig, 2nd Motion of approval by Diana Elson
- II. Work Group Reports
 - Corrections Surveillance for Action Carla Chee

Had call with workgroup last Monday, many new members after NTCA Meeting. Working on recommendations for RVCT Workgroup to collaborate on correction data sets, including the (In the custody of ICE); group wants to add suggestion box to help clarify ICE locator. Arizona is working on new project where they looked up TB cases from 2009-2012 that were reported as ICE, out of the 163 they worked on 50% were in ICE custody but 43% were not and had been miss identified. 2 recommendations is for verification to occur with ICE before putting that in RVCT and also to educate jails and jurisdictions about the different prison systems and custodies. Team discussed maybe adding training to Correction Liaison Training being developed about different correctional systems before reporting. USMS- Moore offered to help Arizona with study to see if the remaining 43% were maybe USMS prisoners instead.
 - Corrections Education and Training Ann Sittig

Workgroup met last week and continue to grow in membership to encompass people that represent corrections as a whole. This group also had large increase in members after NTCA Meeting as well. Update on training being developed by Heartland Jessica Quintero to take lead to have comprehensive training for TB Correctional Liaisons to include culture of corrections and contact investigation training, as well as how to evaluate their program. Heartland is hoping to have completed for pilot test group by October. Hope to release to public by December 2013.

New correctional website is being reviewed and hopes to be a repository of information on TB in corrections. Future needs still include development of medical professional training for those who provide care to correctional inmates. Group also discussed creation of domain to store resources and for a new vetting process for approval of resources to be shared. New members wanting to help with this should talk with Ann Sittig. Many need mini workgroups to help with training such as contact investigation training or other small training development.
 - Corrections Partnerships (Liaisons) Ellen-Not on Call

No Update at this time, Diana will reach out for update. Currently new correctional liaison contacts list available now on NTCA Website. Diane F. will talk to Ellen about sending Needs Assessment out to group for review.

III. Open Discussion:

- Lauren- discussed the Correctional Slide Set has been useful and Lori Armstrong has idea that it would be good to turn that info into a webinar for education maybe 45-1hr in length. Should it be with other training or stand alone? Group discussed that if CDC sponsored we could get out to larger audience. Diana F. stated it would be important to have Carla discuss the accuracy of the RVCT data and maybe add that to the webinar.

IV. Next Conference Call: Aug 16, 2013
