In order to support some additional time reconciling your data, we have extended the first reconciliation phase by two weeks. Please continue to submit updates through normal system updates through **Friday, May 15<sup>th</sup>**. We will plan to provide the 2<sup>nd</sup> pre-frozen the week of May 18<sup>th</sup>. Thank you for your diligence!

Dear TB Control Officers and Surveillance Data Coordinators,

NTIP has been updated with a new release that includes the pre-frozen 2019 dataset. This includes all data submitted and corrected by April 7, 2020. Currently, the Funding Formula Variables Snapshot is available for review and reconciliation by the TB cooperative agreement program areas. To review the Funding Formula Snapshot report, select "Frozen 2019 Dataset" under options for Data Source in the menu, the cooperative agreement program area under Program Area list, then select "Funding Formula Variables Snapshot" under Indicator report options.

Attached you will find a document that describes the funding formula variables snapshot and how to use the Demographics Line Listing within NTIP to verify your case data that is included in each count for each variable.

You will have until **Friday, May 1, 2020** to provide corrections through **normal system updates** for this dataset prior to a final frozen. Please contact the DTBE Helpdesk at [DTBESupport@cdc.gov](mailto:DTBESupport@cdc.gov) anytime you have questions or need assistance.

Thanks,  
Sandy
