Subject: TB Patient Education Materials Now Available in Dari and Pashto (languages spoken in Afghanistan)

Dear Colleagues:

The Centers for Disease Control and Prevention (CDC), Division of Tuberculosis Elimination (DTBE), is pleased to announce that two TB patient education materials are now available in Dari and Pashto, the two primary languages spoken in Afghanistan. These resources may be helpful as part of TB screening and follow-up of arrivals from Afghanistan as part of [Operation Allies Welcome](#).

The **Questions & Answers About Tuberculosis** booklet can be downloaded from the CDC website in [Dari](#), [Pashto](#), [Spanish](#), [Tagalog](#), [Vietnamese](#), and [English](#).

Print copies of the English **Questions & Answers About Tuberculosis** booklet are available free of charge from [CDC-Info on Demand Publications](#). For information on how to order print copies, please see the [Publications Ordering Instructions](#). Print copies of the **Questions & Answers About Tuberculosis** booklet in Dari, Pashto, Spanish, Tagalog, and Vietnamese will be available soon. When these print copies are available, an additional notification will be sent informing partners that these resources are available.

In addition, a fact sheet, **Tuberculosis: General Information**, is also available on the CDC website in [Dari](#), [Pashto](#), and [English](#).

Best regards,

Nick
